Senator Strode's bill simply directs the board of visitors of the University to the man who then disturbs him.

It is agreed that he pewspaper him the House has personality, his cordial greetings, his cheres it did and collection is did to the provide and the provide larger educational opportunities that he State will have bee

members of the party whose hope from the State comes to examine and make it is only to see it stand always for what is right and progressive and disto correct this misstep with swiftness and sureness.

UP IN THE AIR. The Times-Dispatch was decidedly

perfectly loval to consolidation, upon which they had already voted favorome out of the present session of the do not know how that may be. But 85 through the lower branch by the has thrown the whole thing back into

ablic spirit of the House, and come together again to deliberate, detaken to indicate, and does indicate, must start its difficult course to passage all over again. At the moment aging. But we commit our hopes, not wholly in despair, to the offices of the able committee representing this city, whose infinite patience, zeal and tact

Careful economy, with retrenchment wherever possible, is the keynote of the moment strained to the fullest to take care of institutions and moveconsiderations have no bearing on the Strode bill to establish a State college or women, which calls for the making of plans only and for not one penny of money; and this bill ought to be passed, and passed with few dissenting

burg the State, liberal as it is toward the training of its boys, is doing nothing for the higher education of women. In effect, it bids them be content with what the high school teaches New York or Massachusetts. Yet these the only bases upon which the State higher education or that higher education would be economically an undesirable thing for them. Neither of these suppositions is true, or will hold water for a minute.

Woman's whole relation to society was changed, permanently and probrealize, when constantly increasing independent. To-day some 5,000,000 en made in developing and improving vantageous to do as much for the feschool system of Virginia dates male breadwinner. A trained and period, and prob- at the same time-since the majority v the biggest advance that Virginia of women are not in the wage-carning one seeks to controvert these facts. | charge her fixed and eternal duties as

charge her fixed and cternal dutes as home-maker, wife and mother.

That women want the opportunity for higher education is as plain as that they would be benefited by it, economically and socially. Here in Virginia there is a dearth of direct proof perhaps, because of the fact that the woman's college is all but non-existent. But there is very plain evidence in our school system, where it is pointed out that three girls complete the high school course and graduate for every one boy. We are told that the Normal School at Harrison-burg is taxed beyond its capacity, and that more than 100 young women have been turned away this year. The analogy from other States, also, is most instructive. Barnard College, the women's annex of Columbia University, was started twenty years, ago with twenty-five students, and an income of Every paper in the country is reserved. ng forward splendidly. No one has for higher education is as plain as hardinood to assert that, in ad-acing education in Virginia, the economically and socially. Here in system of administration has Virginia there is a dearth of direct oved a failure. The sole ground of proof perhaps, because of the fact that inite attack upon this system is the the woman's college is all but nonf dangerously playing politics. For dence in our school system, where it ation at all. But if it is true, let plete the high school course and gradtwenty-five students, and an income of comparison sense and the public good, let us, in the attempt to punish individes, where here students are discussed in the attempt to punish individes. Where here students graduating a class of 98, and it now has an endowment fund of the loveliest things said of him in the press. Kinder words never appeared in the newspapers about any

found to offer the simplest and interested, will rely upon the Senate most economical way in which a woman's college could be organized. Except a dormitory and a single lecture will be needed. No new administraother day that disaffected citizens of gaged. The University of Virginia Richmond would not agitate for a professors will be paid an honorarium forward we shall put off the crossing the woman's department. No co-edu-of that bridge until we come somewhat nearer to it. The Councilmen last and women students will not be night knocked the scheme higher than brought together at all, except that

they will use the same library, times elsewhere, and we believe that nance, with the amendment which the The men have accepted the presence Aldermen had tacked on to it, had no of the women gracefully, and there has chance to pass the Manchester City been little friction and less need for well-founded. Possibly the Aldermen, there will doubtless be some oppoin attaching the amendment, were sition among the men to the adapart. But we are confident that this men is needed and desirable; this plan and the arrangement would doubtless be the means of attracting endowments to the university which now go else-

GERMAN ARMY TO MENACE RUSSIA

Annual Manoeuvres This Year to Take Place on Muscovite Frontier.

IN NATURE OF WARNING

Emperor William Displeased a Russia's Friendly Relations With France and England.

BY LA MARQUISE DE FONTENOY.

S Emperor William always has a number of American guests. Official and private, at the grand annual manocurres of the German army, it may be well to state that this year they will prove of altogether exceptional interest, and instead of taking place in the western portion of the empire, where for exceptional interest, and instead of taking place in the western portion of the empire, where for same forts play so important a role in the operations, they will be held in the casternmost provinces, where the territory is cut in every direction by rivers, streams, swamps and dense forests, which the general staff, constituting the brains of the German army, have been studying for years, with the object of their utilization for strategical purposes, in the event of a war with Russia. Moreover, the practice hitherto in vogue in these annual manocurres, of rendering each day's operations distinct from another, will be abandoned for the first time, and the sham warfare will go on by day and by night, without interruption, throughout the entire period of the manocurres, in which the lessons taught by the war in South Africa, and by that in Manchuria, are to receive full application.

The German cavalry participating in the manocurres, which will consist of a fight between the First and Seventeenth Corps of the army will be armed with the new long carbine and hayonet, which latter is to take the place of the sabre. The men of the First Army Corps will war for the occasion the new grayish-green campaign uniform.

That the manocurres should take place on the eastern border cannot be construed as otherwise than more or less of a menace to the power on the other side of the frontier, namely, other side of the fronti

place on the eastern border cannot be construed as otherwise than more or less of a menace to the power on the other side of the frohier. manely Russin. For it means the initiation of officers of every rank, as well as of the troops, into the sort of campdigning which would become necessary in the troops, into the sort of campdigning which would become necessary in the vertex have usually taken place in the western portion of the empire, just as if to keep the French in mind of the fact that the conqueror of 1879 was still on the watch to protect the truits of her victories. On another occasion the minocurres took place on the northern coast, with the navy cooperating, by way of a reminder to Great Britain that Germany was prepared for truble in that direction.

Now comes the turn of Russia for a similar intimation on the part of Germany; and careful observers of the course of political events cannot be blamed if they connect this with the fact that they fact that the fact that they will the fact that they will the read estate to him for a similar intimation on the part of Germany; and careful observers of the course of political events cannot be blamed if they connect this with the fact that they will be read that for colored People, etc.

2. I am very much interested in the wild read a possession of Greece?

2. I am very much interested in the subject.

3. How does Mexico rank among the cities of the world in regard to size?

4. What are the ten largest cities of the world in regard to size?

5. How does Mexico rank among the cities of the world in regard to size?

5. What is the average height and weight of a boy of thirteen years?

6. E. W.

1. No: Crete occupies a peculiar interna

for a similar intimation on the part of Germany; and careful observers of the course of political events cannot be blamed if they connect this with the fact that the relations between Germany and Russia are less friendly than at any other time since the accession of Nicicolas II. to the Muscovite throne. That Russia should have abandoned her former alliance with Germany, in order to effect an understanding with France that was virtually aimed at Germany, was bad enough in all conscience. But that Russia should still further unite herself with England, and seek to promote the desertion of Italy from the Triple Alliance, has shown the Raiser the uselessness of pursuing any further the policy urged upon him by liss grandfather, old Emperor William, when, on his deathbed, he entreated him to, at all costs, cultivate the friendship of Russia.

Let me add with regard to these anticle manded with regard to the second with the man

on one occasion menaced Holland with military occupation, bears a name which of occupation, bears a name which to every patriotic Russian constitutes a pretext for expectoration, in token of exceration, for it was a Baron George d'Anthea Heeckeren who killed Russia's most famous poet. Pushkin in a duel, which had been rendered necessary through his betrayal of Pushkin's wife, who was likewise the baron's sister-in-law. Baron Heeckeren was at the time living at St. Petersburg, where his father was minister of the Notherlands, but was obliged immediately after the duel to fice for his life from Russia, in order to escape popular vengeance. In reality, he was a half-brother of Napoleon III, for he was not the legitimate, but the natural, son of the Dutch envoy at St. Petersburg, who had been one of the most favored admirers of Queen Hortense, and It was Queen Hortense—that is to Say, the mother of Napoleon III. In say, the mother of the slayer of the poet Pushkin. The Heeckerens are one of the oldest families of the Dutch aristocrasy, and for the last 200 years have played a very active role in the history of that country.

Concerning the Stracheyx.

CASTORIA

for Infants and Children.

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Scothing Syrups. It is Pleasant. It contains neither Oplum, Morphine nor other Narcotic substance. It destroys Worms and allays Feverishness. It cures Diarrhosa and Wind Colic. It relieves Teething Troubles and cures Constipation. It regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.
